

Take part to our E-cal project activities!

Try the Demo version of our platform!

Project website is enriching every day with new content. You can already try our E-training course and share with us your opinion. Your feedback is important to us as our materials are aiming to answer to your expectation.

Contact us to provide you access to the Demo version.

Support project dissemination and exploitation!

During the 1st year of the project the consortium has set up more than 50 dissemination and exploitation activities aimed at more than 50,000 people, through different actions: events organized at Malopolska School of Economics in Tarnow, IDigStories workshops implemented in Rzeszów, publications on specialized magazines and social media...

Share our news and support us to make Web-based courses successful and enjoyable for everyone.

2nd meeting in Rzeszow, Poland, June, 22th and 23th 2016

Partners were welcomed by Danmar Computers representatives in June 2016. Partners have presented their work progress on e-training courses and discuss about further development based on Chamon model of language learning that requires four metacognitive processes: Planning, Implementing, Monitoring and Evaluating.

Three guides to the web based OCR available or suitable for L2 learning (French, English, Italian) are to be elaborated following a framework for describing and categorising these OERs by involving essentially learners and L2 supporters in development process

We're on the Web!
